

Covid Schools Emergency home to school transport Plan.

Due to the rise of covid cases and the emergence of the Omicron variant, we are drawing up emergency plans to cover our school routes in case staff test positive for Covid-19. We are already facing severe driver shortages within our industry and as staff members must self-isolate for 10 days this can be very disruptive to an already stretched situation. We haven't had to cancel routes yet, but it will be only a matter of time. So, for this reason, we have produced a plan B for certain schools. We apologise for this inconvenience, and we will only use these measures when necessary.

Thurstable Kelvedon and Feering bus
